**RE: Matter of Friedman , Index No. 9060/18**

Dear Hon. Judge Onofry,

In response to the orders issued by the court today I wish to make the following observations.

The Court, while acknowledging serious and grave issues surrounding lack of compliance with the orders (a situation that this case is replete with ever since inception nearly three years ago), is shifting responsibility to Joel Teitelbaum instead of the court taking full responsibility.

Joel Teitelbaum is incapable to make any truthful report. He has zero connection, relationship or communications with my brother Yoel, including since July 2019. Joel Teitelbaum has zero knowledge of Yoel's situation. The predecessor (vacated) guardians never gave Joel (the succeeding guardian) control over anything not destroyed by them.

If the Court were to take full responsibility over this article 81 to sincerely and honestly protect Yoel and stop the murder plot, the court would stop ignoring and bypassing Yoel, and would make its own independent investigation rather than shift everything to Joel Teitelbaum or assigning counsel for Yoel, which Yoel didn't ask.

Respectfully yours
