**RE: Matter of Friedman , Index No. 9060/18**

Dear Hon. Judge Onofry,

I received your letter of this morning as a response to my letter sent yesterday August 11, 2021.

It appears that instead of addressing the subject matter raised in my letter, the court only addressed the format of how I should communicate with the court. Formats and proceeding rules are put in place for ordinary situations.

At this point, when my brother Yoel's life is in danger and the court needs to stop plotting to murder him, ordinary formats and proceeding rules can't matter. It is my duty and obligation to do whatever necessary, and within my reach to save my brother's Yoel life.

I will always communicate my concerns on this matter to the court in accordance with my abilities. I will reiterate what I stated in my last letter, that the court must do an independent investigation of my brother Yoel instead of ignoring and bypassing him, and without shifting responsibility to or directing communications to be with Joel Teitelbaum, a incompetent person who's part of the murder plot.

Respectfully yours

*Ben Friedman*
